

Together the State of Kentucky and Creative Recycling Systems are Shaping the Future.

Did you know Creative Recycling Systems (CRS) was re-awarded the Kentucky State Contract for e-Scrap Recycling? And, did you know by recycling your electronics with CRS you receive even more for your district's Electronic Equipment?

CRS offers, at no additional cost:

- **Handling of all logistics** - from picking up to palletizing/ shrink-wrapping all your recycling equipment
- **Fully process all your materials** - nothing you recycle with CRS ends up in landfills
- **Full data security and sanitization** - from data sanitization to hard drive destruction
- **Complete Inventory** - Including total count and weight of your full inventory
- **Certificates of recycling** provided at NO additional charge

The Help You Need - If you're in the State of Kentucky, CRS will be your recycler. We accommodate any size/weight pick up. Below is your special pricing.
